

# InnovateED Summit

April 23, 2025

## Roundtable Discussion Protocol: A Few Moments to Reflect, and Act

We will have 45 minutes to ‘connect the dots’ of our theme, *empowering economic advancement through education and workforce development*. We’ll use the prompts below to help surface and discuss diverse perspectives, and advance our collective impact. We will be using a live tech tool (with QR codes for three of the prompts) to help us capture and share reflections.

### Introductions (5 min.)

Please share your name, role, organization, and the industry sector hub you most identify with (Engineering & Technology; Health & Life Sciences; Business Enterprise; Public Service, Education, and Social Sciences).

---

**For each prompt (‘moment’), help us stay grounded in what you’re experiencing as a leader in your space. Use each QR code to enter your reflection, then share with the group.**

### ‘Aha’ Moment (10 min.)

What’s one insight you saw, heard, or had that excites you about this collaborative work? *Once everyone has shared, feel free to respond to others’ initial reflections.*

### ‘Say More’ Moment (10 min.)

What’s one aspect of the data or commentary from the presentations/panels that you’re curious to learn more about?

### ‘Puzzle Piece’ Moment (10 min.)

Based on the READY Institute overview and the conversations today, will this work answer your driving question for inclusive talent development in Montgomery County? (If not, what is one question - a missing ‘puzzle piece’ - we should work to answer?)

### Let’s Do This! (10 min.)

We are grateful for your participation in our collective efforts. Based on our foundation and progress to date, what is one way you/your organization can continue to help us advance on our shared goals?
