

PROTECTING COMMUNITIES: HEALTH, JUSTICE & THE ENVIRONMENT

Students work in interdisciplinary teams exploring topics at the intersection of social work, nursing, and criminal justice, developing practical solutions. Facilitated by graduate and undergraduate mentors, faculty and community partners, teams tackle real-world challenges. Students do not need to be pursuing a career in these fields — curiosity, creativity, and interest in real-world problem solving are all that's required.

FREE REGISTRATION by July 1

Open to Community College students who are 18 years or older & 1st and 2nd year students at USG

July 7-23, 2026
Monday-Thursday
10:00am-4:00pm

9631 Gudelsky Drive
